

CEDIA® EXPO DAILY

The Official Show Daily from the editors of Residential Systems and TWICE magazines

September 7-9, Denver, CO

Dear CEDIA Expo Exhibitor,

A 4-edition CEDIA Expo Daily in Denver, CO

CEDIA Expo 2023, to be held in Denver, CO, September 7-9, is coming up quickly. The Official Show Daily features a preview VIP e-zine and three, printed and digital on-site daily newspapers with from-the-floor coverage of company and product news. The CEDIA Expo Daily is an excellent way to publicize your new products at CEDIA Expo because it is the go-to source for product information for every show attendee.

We need two things from you

#1 — More Press Releases and Photos!

Send up to two releases per show issue (for a maximum of six total) and one release for the VIP Preview issue. We want product releases, company news, people announcements and equipment installations notices. This is your opportunity to gain more exposure at CEDIA Expo 2023 by providing us with your show news!

VIP Preview Issue Deadline: July 27; **At-Show Issues Deadline:** August 7

#2 — Hot Products Section and Press Releases:

To qualify for the Hot Products section, please send your product releases and accompanying photos by **August 7, 2023**. The Hot Products are the editor's selections of the most innovative or important new products to be exhibited. Also be sure to send any updates on your company and description of overall product offerings for the **Show Daily** as soon as possible.

**Send us your
product releases
for the VIP issue
by July 27, 2023**

Don't miss out on this once-a-year opportunity to publicize your company and products at the most important trade show for custom installation. Maximize the number of attendees who visit your booth with coverage in the Official Show Daily!

Please send all materials by July 27 (VIP) or August 7 (At-Show) to:

David McGee, editor, david.mcgee@futurenet.com

Free CEDIA EXPO Daily Editorial Coverage

Send in your latest press releases
and product artwork

HOW TO GET EDITORIAL COVERAGE IN THE CEDIA EXPO SHOW DAILY

Product press releases should be limited to 200 words maximum. Do not send a list of specs in lieu of a press release.

VIP coverage policy remains unchanged: one release per issue per exhibitor. For the show issues, maximum number of press releases per issue: Two (2) per exhibitor. Please prioritize these by day and order of importance (Day 1/Priority 1, Day 1/Priority 2, etc.). And remember, not everyone can be in Day 1!

Please note the proper image specs for print publication: at least 300 DPI; at least three inches wide and deep, jpg or tiff preferred.

PLEASE SEND PRESS RELEASES

Send in Your CEDIA Expo “Hot Products”

Hot Products is in essence our Editors’ Choice of the most innovation or new products at CEDIA Expo. Exhibitors are allowed to submit two products to be considered for inclusion in Hot Products. Accompanying text should be no more than 40-50 words. There is no flexibility with regards to this word-count limit. Hot Products entries must be real products, not prototypes, introduced following last year’s CEDIA Expo; all Hot Products entries must be accompanied by a publishable image (see specs above).

HOT PRODUCTS PHOTOS: You must send a photo to be considered. Photos should be in JPEG or TIFF format at 300 dpi and approximately 3 inches wide.
